

Operations Associate

About the Company

We are an Ed Tech company aiming to personalize learning and enhance engagement in teaching. We are using extensive statistical modelling for the former and innovating different research techniques for the later. We differentiate ourselves from the contemporary companies in the sheer amount of personalization we introduce and the unique interactive teaching formats we employ. Having come from an experience in diverse fields like financial modelling (from working at Goldman Sachs), Robotics and Machine Learning, we are using it to try to change the way learning and teaching is happening.

Role

Since our first product is set to launch in the beta phase by the start of next academic year, we are starting research for our next product. We are planning to go to a couple of schools and implement our strategies to get a working feedback so that once we finalize the techniques and format, our product will be ready to launch. We are looking for people to implement in the schools the techniques that are designed at the company.

After the research phase (which may extend till 6-8 months) and once we launch, the associate can choose to

- Join the office in Hyderabad in the core strategy team or operations team.
 - Join the office in Hyderabad as a software engineer.
 - Continue in the same line of work, mentoring and overseeing multiple organisations.
-

Responsibilities

The responsibilities include

- Teaching using our techniques and methodology
- Conducting different kinds of events that we design at the company
- Helping existing teachers to implement our methodologies and the format

The associate is not expected but strongly encouraged to come up with own ideas or to join us in our strategy planning.

Requirements

- Should have a good academic track record.
 - Should be passionate about teaching and learning.
 - Experience in an administrative role is a plus
 - Strong analytical and organisational skills.
 - Excellent communication and listening skills.
-

Location

TBD

Most of the work will be in a school that we finalize on

Compensation

Initially 4-5 LPA before the seed stage.

Will increase after seed funding depending on the performance.

Reporting

The associate will work closely with the founding team and report directly to them.
